# **EXERCISE 01**

Creating Simple Test Plan

- Step 1: Create a Thread Group
- Step 2: Create a Sampler hitting Google page
- Step 3: Add the *View Results in Table* Listener and analyse the result
- Step 4: Run the test

### **EXERCISE 02**

Creating Interleave Controller

- Step 1: Create a Thread Group
- Step 2: Create a Interleave Controller
- Step 3: In Interleave Controller, create a Sample hitting Google.com page.
- Step 4: Add the *View Results in Table* Listener and analyse the result
- Step 5: Run the test

# **EXERCISE 03**

Creating If Controller

- Step 1: Create a Thread Group

- Step 2: Create a If Controller
- Step 3: In If Controller, create a Sample hitting Google.com page.
- Step 4: In Expresstion input "True"
- Step 4: Add the *View Results in Table* Listener and analyse the result
- Step 5: Run the test

#### **EXERCISE 04**

#### Creating Runtime Controller

- Step 1: Create a Thread Group
- Step 2: Create a Runtime Controller
- Step 3: In Runtime Controller, create 5 Sample hitting Google.com page.
- Step 4: Input the runtime is 5s
- Step 4: Add the View Results in Table Listener and analyse the result
- Step 5: Run the test

# **EXERCISE 05**

## Creating Runtime Controller

- Step 1: Create a Thread Group
- Step 2: Create a Runtime Controller
- Step 3: In Runtime Controller, create 5 Sample hitting Google.com page.
- Step 4: Input the runtime is 5s
- Step 4: Add the *View Results in Table* Listener and analyse the result
- Step 5: Run the test
